

Transformative  
Projects

## Success Stories

[www.reliability.com.ar](http://www.reliability.com.ar)

## Industrial Building Construction

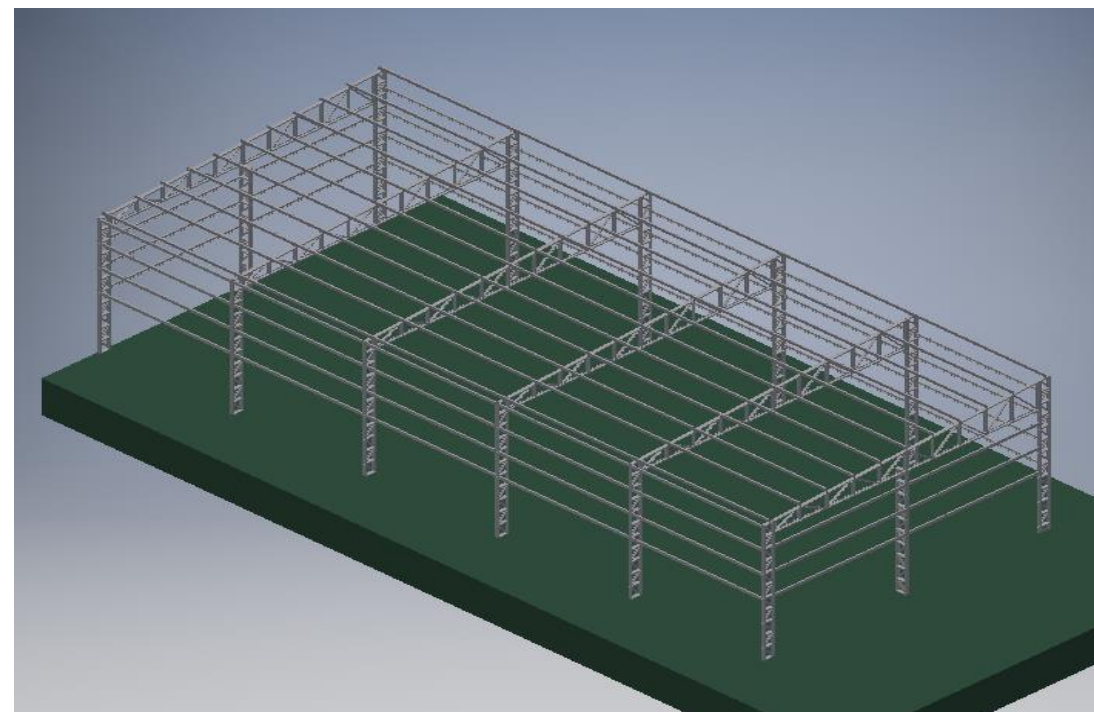

**Sector:** Chemistry.

**Location:** Buenos, Argentina.

**Scope:** Construction and assembly in the turnkey mode of an industrial warehouse of 1350 m<sup>2</sup>.

- Metallic structure with structural profiles
- Masonry work.
- Industrial floors.
- Automatic gates.
- Electrical installation and lighting.
- Construction of offices and bathrooms.
- Internet and telephone services.
- Approved architecture and engineering plans.

**Total duration:** 240 days.

## Increased Productive Capacity

**Sector:** Chemistry.

**Location:** San Luis, Argentina.

**Scope:** Turnkey project for the design, construction and assembly of 4 herbicide formulation and packaging lines.

The project included everything from the development of detailed engineering to assembly, construction and commissioning.

- Civil Engineering.
- Mechanical Engineering.
- Electric engineering.
- Control Engineering.
- Piping Engineering.

**Total duration:** 360 days.

## Increased Productive Capacity

**Sector:** Chemistry.

**Location:** San Luis, Argentina.

**Scope:** Turnkey project for the design, construction and assembly of 12 insecticide formulation and packaging lines.

The project included everything from the development of detailed engineering to assembly, construction and commissioning.

- Civil Engineering.
- Mechanical Engineering.
- Electric engineering.
- Control Engineering.
- Piping Engineering.

**Total duration:** 360 days.

## Filling and end of line Herbicide and Insecticides

**Sector:** Chemistry.

**Location:** Buenos Aires, Argentina.

**Scope:** Turnkey project for the design, construction and assembly of two packaging lines and the end of the automatic line for insecticides and herbicides.

We develop the following documents:

- Mechanical Engineering.
- Electric engineering.
- Control Engineering.
- Piping Engineering.
- robotics
- Communications and data acquisition system

**Total duration:** 240 days.

## Fire Network System

**Sector:** Chemistry.

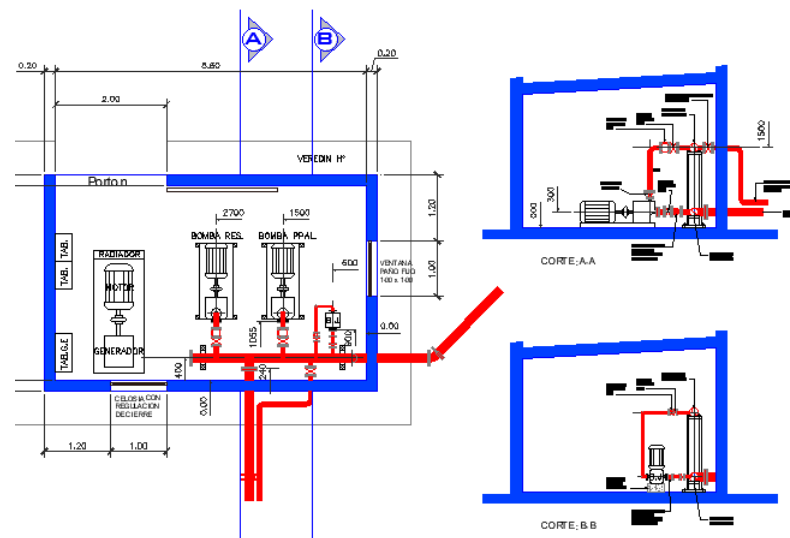

**Location:** San Luis, Argentina.

**Scope:** Turnkey project for the design, construction and assembly of a fire network system

We develop the following documents:

- Mechanical Engineering.
- Electric engineering.
- Control Engineering.
- Piping Engineering.
- Permits and approvals.

**Total duration:** 120 days.

## Canteen, changing rooms and industrial laboratory construction

**Sector:** Chemistry.

**Location:** San Luis, Argentina.

**Scope:** Turnkey project for the construction of a locker room, a dining room and an industrial laboratory.

We develop the following documents:

- Civil Engineering.
- Mechanical Engineering.
- Electric engineering.
- Piping Engineering.
- Selection of equipment for the laboratory.
- Soil and resistivity studies.
- Permits and approvals.

**Total duration:** 180 days.
